

Article Licensing System – Read & Publish

1. On acceptance of manuscript, authors get an email with a link to the licensing system.

Wednesday, February 3, 2018

Dear Professor Ching-An Peng:

Thank you for choosing to publish with **Physical Chemistry Chemical Physics**, a journal published by the Royal Society of Chemistry

Poly(N-isopropylacrylamide) modified polydopamine as temperature-responsive surface for cultivation and harvest of mesenchymal stem cells

Manuscript ID: **C7CP02336G**

Please submit your Licence to Publish now using the link below so that we can proceed with publication of your manuscript:

<http://licence.rsc.org/start.html>

We are unable to publish your manuscript until a valid licence has been received, so please sign the licence as soon as possible to avoid delays. If you would like to publish your article open access, relevant licence options are also available through the above link. Please contact us if you have any questions.

Yours sincerely,
Physical Chemistry Chemical Physics Editorial Office

3. Author clicks Start now

System automatically identifies the author as being from a Read & Publish institute based on the author email domain

1: START > 2: CHOOSE > 3: SIGN > 4: REVIEW

CHOOSE A PUBLICATION ROUTE

Please select a publication route for your article, you can choose from standard (traditional) publication or gold open access. See our website for more information about [open access](#).

[UNIVERSITY NAME APPEARS HERE]

Your institution has a Read & Publish open access agreement with the Royal Society of Chemistry, which means that your institution will automatically cover the article processing charge (APC) allowing you to publish your article gold open access.

STANDARD PUBLICATION

Version of record available to institutions with a subscription

Accepted manuscript available after embargo (allows the accepted manuscript to be made green open access via a repository after 12 months)

Author retains copyright

Others have restricted sharing and reuse rights

FREE

No article publication charges

Select our standard licence

GOLD OPEN ACCESS PUBLICATION

Version of record is freely available to everyone

Open access is immediate upon publication (payment of article processing charge may be required before publication)

Author retains copyright

Others can share and reuse

Membership or institutional discounts may apply

FREE

No payment required

Select an open access licence

Select a publication route to continue

CONTINUE

4. If the author selects standard publication instead of OA, they get a notification that they are not complying with their institute's preferred mode of publication.

5. If the author selects Gold Open Access Publication, they are given an option of the two creative commons licenses

1: START > 2: CHOOSE > **3: SIGN** > 4: PAY > 5: REVIEW

SIGN YOUR LICENCE ONLINE

We offer a choice of two Creative Commons licences. Creative Commons is a global non-profit organisation, offering free open access licences. Further information is available on the [Creative Commons website](#). You may select the appropriate licence according to your funding body and research institute requirements or your personal choice.

CC BY - Creative Commons Attribution

Allows other users to reuse, distribute, and build upon the work, even commercially, with full original author attribution.

CC BY-NC - Creative Commons Attribution Non-Commercial

Allows other users to reuse, distribute, and build upon the work, non-commercially, with full original author attribution.

Select an open access licence. You will then need to agree to the licence terms.

CC BY-NC - Creative Commons Attribution Non-Commercial

Allows other users to reuse, distribute, and build upon the work, non-commercially, with full original author attribution.

Please sign the licence by ticking the box below.

Creative Commons Attribution Non-Commercial
CC BY-NC

The Work consists of all files submitted using the E-submission system, including but not limited to, the text of this paper, figures, illustrations, diagrams and tables ("the Paper") and the accompanying supplementary material, ("the Supplementary Material").

The Author(s) are those named in the submitted Work.

Please note: all Authors must have been informed of the full content of the Work at the time of submission.

If the Author(s) is the Owner then, where used below, "the Owner" means the Author(s).

If the journal in which the Work is to be published is published by the RSC on behalf of another organisation/other organisations the rights granted to the RSC in Clause 1 shall also be granted to the other organisation(s).

If you are not authorised to sign the licence or if you are not sure, please contact the [Customer Services team](#).

I agree to the terms and conditions of the CC BY-NC licence and confirm that I am authorised to sign it as, or on behalf of, the copyright holder.
