Service description

Description

Manual recording (in combination with auditorium transmission and/or live streaming) of events, conferences and lectures in suitable rooms at ETH and in other locations, subject to technical suitability ([example video](#)).

Customer Benefit

The event can be recorded in the customers desired format.

Customer Groups / Cost / Order

All organisational units of ETH Zurich can request an event recording. The recording is always subject to a charge, the amount of the cost depends on the duration of the event or the cost of production. Based on our documented tariffs we make an offer based on a program or in accordance with information about the duration of the event. A request should be made as early as possible because we have to dispose personnel.
